

Rubber Paver Tiles

These heavy-duty Rubber Paver Tiles spruce up decks, playgrounds, patios and exterior walkways by providing increased traction and impact protection in two aesthetically pleasing designs: one on each side of every tile.

- Recycled rubber pavers are slip and stain resistant and are not damaged by exposure to extreme heat and cold temperatures.
- Tiles are easy to install in any space and can be cut to fit any area. Use Gorilla Glue to secure tiles in place on any type of hard surface.
- Each paver tile is 16" x 16" and 3/4" thick.
- Rubber pavers are easy to maintain - simply brush off or hose down as needed.
- These outdoor pavers are sustainable products produced from 100% recycled SBR rubber and EPDM rubber.
